## 6. DETAILS OF TEACHING METHODOLOGIES FOLLOWED:

- **Experiential learning:** PG students are allowed to practice mini implant system, Damon bracket system and Aligners which are the recent developments in orthodontics. UG students are allowed to learn removable appliance fabrication for patients and diagnosing and treatment planning for simple orthodontic cases by giving case discussions.
- **Integrated/ interdisciplinary learning:** various multidisciplinary cases are discussed and treated between the departments like ortho-endo, ortho-prostho, ortho-surgery, ortho-perio by the postgraduates with the help of department faculty. Students are encouraged to attend interdepartmental meetings, webinars to expand their knowledge.
- **Participatory learning:** students are encouraged to attend and present posters and papers in specialty conventions and non specialty conventions, conferences and CDE programs.
- **Problem solving methodologies:** Group discussions for the students as and when they are posted regularly. Chair side case discussions are regularly done in the clinical postings for UG students. Regular case discussions are undertaken for PG students and help them develop right treatment plan
- **Self- directed learning:** Post graduates are engaged in seminars, journal clubs, clinical demonstrations, cde's and workshops, conferences and reasearch activities throught their 3 year course.
- **Patient centric and evidence-based learning:** Every case presented will have supporting articles before starting the treatment and focusing in patient's chief complaint first followed by the functional and esthetic considerations to provide maximum benefit for the patients.
