The Principal,

D.A. Pandu Memorial R.V. Dental College
Bangalore

Respected Madam/Sir,

Karnataka State Dental Council & Rajiv Gandhi University of Health Sciences organizing a state-level sensitization program for interns studying in all the dental colleges situated in the state of Karnataka..

This program is intended to expose the dental interns on the topics which are not learnt as a part of the curriculum. Today the society needs dentist to be skilled as a good management person and hence the Karnataka State Dental Council in association with JSS academy of management studies has designed a sensitization program covering various aspects of Management studies which extends from clinical skills, Clinic management, financial management, communication skills, medical jurisprudence ethics and statutory requirements.

This program will be conducted for duration of two days at 8 locations of Karnataka covering 3000 interns across all the dental colleges. The interns will be taught on the topics mentioned above. This will enable them to understand the market requirements and the behavioral changes required in the practice management and the communication skills.

Hence, we request you to register all the interns of your college to be part of the workshop. We are conducting in 2 batches to avoid inconvenience to the patient in the college.

Venue and Date: R V Dental College on 7th, 8th and 13th, 14th August 2019.

In anticipation.

Yours Sincerely,

Vice-president.

Registrar

PERIO-PANORAMA

The Department of Periodontics, D.A.P.M. R.V. Dental College along with Bangalore Academy of Periodontology, Under the Aegis of Rajiv Gandhi University of Health Sciences, Karnataka, presents Perio-Panorama, an exam oriented program for Post graduate students of Periodontology. This three day program is designed to prepare the students to face the examination with confidence. It consists of lectures and panel discussions by erudite faculty and covers all the aspects of examination-theory, clinical and viva voce. The program is also designed keeping in mind the 1st and 2nd year post-graduate students. We request the Principal and Head of the Department of all Post Graduate Institutions to bring it to the notice of Post Graduate students, so that they can avail the benefit of this intense and focused academic program.

The Association of Oral and Maxillofacial Surgeons of India (AOMSI), has identified a significant gap area in our Maxillofacial training, Poor understanding of various organ systems and their associated disorders in our patients and the consequences of undertaking Maxillofacial surgical procedures in these patients without proper optimisation is a serious issue. This can often translate into serious life threatening episodes in the perioperative period, sometimes with disastrous results.

The AOMSI has therefore taken this initiative to try and fill this gap with a 3 day intensive, interactive, inspiring course the **FOUNDATION MAXFAC**. This is primarily targeted at the first year postgraduate trainee members from around the country. The First ever course will be held from the 25th - 27th January 2019 at Bengaluru. The venue for the meeting will be R.V. Dental College.

The course will be in a highly interactive format of learning, including some lectures, video assisted problem based scenarios, some demonstrations & a lot of discussion. The topics covered will include

- ✦ History Taking
- ✦ Systemic examination and investigations
- ✦ Pre Anaesthetic Evaluation
- ✦ Perioperative Case Scenarios commonly encountered
- ✦ Preop Workup
- ✦ Documentation including informed consent
- ✦ Investigations
- ✦ Intra op Monitoring and related issues
- ✦ Post operative Protocols
- ✦ Medical emergencies in the ward
- ✦ Soft skill including communications
- ✦ Pre and post test to evaluate the efficacy

Sub: Report of the 2 day Patient safety and communication skills workshop and white coat ceremony

Respected Madam

At the outset, the organizing committee would like to thank you for the permission and support extended to conduct the patient safety and communication skills workshop and white coat ceremony for the third year undergraduate students. A total of 45 students benefited from the program.

The students have identified the various aspects which facilitated their learning process and have requested for more such training programs which focus on soft skill development and patient management. Please find attached the detailed report from each session.

We are looking forward to your feedback and continued support in conducting similar programs benefitting the students and faculty alike in the times ahead.

Thanking you once again,

Dr. Harikiran AG

ORTHOSYSTEMS
Best in Everything
D.A.P.M.R.V. Dental College
Nagar I Phase,
Bengaluru - 560 078.

COURSE OUTLINE

DIAGNOSIS & TREATMENT PLANNING

- Strategy to correct occlusal canting - The 5 things to look for from a cephalogram without tracing to acquire important clinical information
- Misinterpretations from cephalogram
- Canine Relationship: The "Dogmatic Principal" of orthodontic treatment
- To extract or not to extract, that is the question!
- Treatment strategy for Class II patients
- Treatment strategy for Class III patients, the utilization of Overlay wire
- B point: the first landmark you should read on a cephalogram and why
- Bracket bonding position is key to clinical success; but do you know it varies with different case type?

BIOMECHANICS

- Whether to apply force to main arch wire or directly to tooth and why?
- New roles for mini screws, when to use bone on anchor plates?
- Tseng's bracket design and its convenience
- Wire bending techniques: paradox of preformed arch wire
- When to treat early? Why is retreatment more frequent nowadays?
- How to close remaining spaces quickly?
- Clinical techniques to close spaces quickly?

CLINICAL CASES DISCUSSION

- Deep Bite: The first hurdle before or during treatment of maxillary anterior labial flaring: very common case type in Taiwan
- How to treat open bite?
- Torque: The second hurdle and its management
- How to determine case difficulty?
- Midline correction
- Why does interproximal spacing occur randomly during treatment?
- How to align high canine quickly?

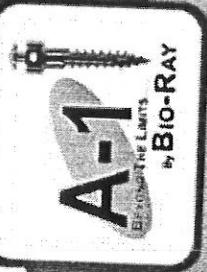

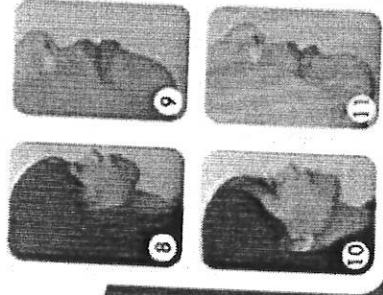

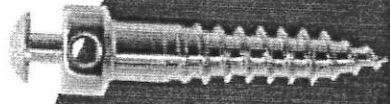

ADVANCED DISCUSSION

- The joy of creating beauty: How to improve patient's facial profile?
- When to modify bracket?
- Elastic management during finishing
- Early debonding with clear retainer
- J-hook: a powerful tool for success
- Soldering: never underestimate its advantages
- How to bond brackets on lingual/ palatal side?
- Retention strategy, how long does fixed retainer last?

HANDSON DEMONSTRATION

Working with Bio-Ray TADs
including Buccal Shelf,
Infrazygomatic
Screws and More

Respected Sir ,

Subject : Successful completion of "MASTERCLASS –ORAL PATHOLOGY 2018)

This is to inform you that we have successfully completed the "Masterclass –Oral Pathology 2018" which was conducted by our department from 6th February to 9th February 2018. The aim of the masterclass was to conduct a rapid review of the subject for the purpose of the postgraduate students for which a total of 25 speakers were invited . We are glad to inform you that we received a tremendous response from several colleges both from Karnataka as well as other states with the total number of registrations being 85. The programme has been very well appreciated by both students and faculty alike.

As a result of the large number of registrations that we have received, we would like to mention that we have utilized only Rs.27,182/- of the total amount of Rs. 50,000/- sanctioned by you.

We take this opportunity to sincerely thank you for all the support and cooperation that has been extended to us .

Thanking you,

Regards,

White Coat Ceremony- 2016
26th and 27th September 2016

Report on the White Coat Ceremony Program

The White Coat Ceremony and formal training of third year undergraduates in Patient safety and communication skills was conducted for the first time ever in the history of D A Pandu Memorial R V Dental College & Hospital on 26th and 27th September 2016. Presented below is the feedback from the student participants.

Background:

The third year Undergraduate students who have made a transition from pre-clinical dentistry to clinical dentistry, were trained in aspects related to patient safety and management. Three eminent resource persons conducted workshop and hands on training session for 56 students.

1. **Prof Raghotham Rao**, from Jain University, visiting faculty RVIM- spoke on patient –dentist communication skills
2. **Dr. Pushpanjali K-** Academic Registrar, Ramaiah University of Applied Sciences – trained the students in Infection control practices.
3. **Dr. D K Srinivias**, Educationist, Former Consultant, Curriculum Cell, RGUHS – trained the students in Ethics and Professionalism.
4. **White Coat Ceremony** – The third year students were formally inducted into the clinical dentistry program by handing over the “White Coat” and administering the Hippocratic Oath.

Program Feedback:

All the student participants identified and quantified their learning because of the workshops conducted. The learning and the factors which influenced the learning are presented in annexure 1, 2 and 3.

On the whole, the students appreciated the interactive nature of the three workshops. They identified that active participation was enhanced by the group activities which were designed to provide a hands on exposure. The students have stated that they now

understood the importance of communication skills in patient management. They have decided to ensure appropriate infection control and patient safety practices while handling the patients. They have also pledged to be ethical and professional dental health care providers. The students have requested for the "Patient safety and communication program" to be included into the annual academic calendar for the benefit of all the UG and PG students in the institution.

Dear Delegates,

Final MDS examination in Prosthodontics represents an important decision making phase in the life of Post graduate student. These are intense moments fraught with confusion and speculation. Fear of the examination can only be overcome by meticulous preparation. Focus on the theory and viva voce exercises should be adequate and equally important as the practical examination.

Post graduate training is intense in terms of clinical/laboratory exercises along with academics and research activities. To have a consensus on various concepts and to share the applied clinical knowledge amongst the post graduate students, Karnataka Prosthodontic Society and Bangalore Prosthodontic Forum have initiated this master class programme. This programme aims in bringing both post graduates and experienced post graduate teachers on one platform for fruitful interaction.

Master class aims to provide

- Opportunity to listen to the views of post graduate teachers
- Experiences from different postgraduate centres
- Deliberation and clarification of controversial viva voce questions
- Summary of the curriculum and rapid review of the syllabus
- Structured programme with lectures related to a particular topic followed by discussions
- Idea to prepare the flow charts for a particular topic and as to what the examiner expects in the answer
- Two day programme with 6 sections.
- Each section with two or three lectures with 30 min discussions

DAY 1

08.30-9.30 AM

Registration & Inauguration

Session 1:

9.30-10.30 AM

Discuss the challenges of complete denture therapy in geriatric patients including the effect of aging and nutrition on residual ridge resorption.

Dr. Kashinath

Describe the philosophies of complete denture impression and application of theories in clinical situations

Dr. Rohit Shetty

11.15-11.30 AM

TEA BREAK

11.30-12.30 PM

Discuss the relevance of facebow transfer in developing occlusion for complete dentures along with laws of articulation

Dr. Srivatsa G

12.30-1.00 PM

Discussion

1.00-1.45 PM

Lunch

Session 2:

1.45 -2.30 PM

Describe the mechanisms of retention in Maxillo Facial Prosthodontics in various clinical situations

Dr. P. C. Jacob

2.30 - 3.15 PM

Outline the design considerations in cast partial denture with emphasis on precision attachments

Dr. Madhusudhan

3.15-3.45 PM

Discussion

3.45-4.00 PM

TEA BREAK

Session 3:

4.00-5.00 PM

Evaluate the recent advances in digital dentistry with emphasis on newer CAD CAM systems

Dr. Akshay Bhargava

5.00-5.45 PM

Discuss recent advances in all ceramic restorations

Dr. Venkateshwara Reddy

5.45-6.15 PM

Discussion

DAY 2

Session 4:

8.30-9.30 AM

TMJ & Stomatognathic System

Describe Stomatognathic System, Physiology of TMJ and Clinical Relevance of Mandibular Movements

Dr. Suresh Sajjan

9.30-10.30 AM

Evaluate evidence based approach to Prosthetic Management for TMD

Dr. Shilpa Shetty

10.30-11.00 AM

Discussion

11.00-11.15 AM

Tea break

Session 5:

11:15-12 Noon

Fixed Prosthodontics

Discuss the relevance of Antes law for evaluation of Abutment in Fixed Prosthodontics. Add a Note on Abutment Evaluation in fixed Prosthodontics.

Dr. Ramesh Nadiger

12.00-12.45 PM

Explain the philosophies of Full mouth Rehabilitation and Critically evaluate the theories based on evidence.

Dr. Gangadhar

12.45-1.15 PM

Discussion

1.15- 2.00 PM

LUNCH

Session 6:

2.00-3.00 PM

Implantology and Biomechanics

Compare the various techniques of Impression making for implant prosthodontics.

Dr. Sridevi.J

Add a note on Merits and Demerits of Cement retained and Screw retained Implant Prosthesis

3.00-4.00 PM

Discuss the importance of biomechanics in long term success with various types of dental prosthesis. Add a note on Implant Occlusion.

Dr. Shobha Rodrigues

4.00-4.30 PM

Discussion
