**Feedback Committee**

**DAPMRVDC**

**Report on "Feedback from the professionals and employers regarding the dental curriculum at DAPMRVDC"**

Interns with three to thirty years of experience as well as dental professionals provided qualitative input on the dentistry curriculum. A total of 26 feedbacks were obtained.

Employers expressed satisfaction with the former students. They claimed that our former students have greater self-assurance and communication abilities.

After a thorough analysis of the qualitative input, the following major themes were identified:

**1. What is your opinion on the current dental curriculum and its impact on the employability?**

Theme 1: Curriculum is outdated and needs revamping

The professionals believed that although the curriculum is revised, it still needs a total redesign. The student is not given enough training to get employed. It is necessary to rearrange the content to take into account the developments in dentistry.

Theme 2: Curriculum is inadequate and needs restructuring

The professionals felt that the current curriculum does not adequately prepare students for the demands of the workforce. They pointed up six particular areas that needed work:

1. It is important to improve soft skills like communication and interpersonal relationships.
2. Teach students how to handle life-threatening and emergency situations.
3. There is a need to improve practice management and practice-focused training.
4. Research has to be improved.
5. Strengthening the clinical exposure is necessary.
6. Financial management training is desperately needed.

Theme 3: Curriculum is adequate

Only a small percentage of the professionals thought the program prepared students for practice and was sufficient. They did not recommend alterations to the curriculum.

**2. Suggestions to enhance the quality of curriculum implemented at DAPMRVDC**

The following suggestions were received to enhance the quality of curriculum at DAPMRVDC.

These included inputs on strengthening the student teaching and assessment modalities, additional training programs and improving the infrastructure:

### 2.1. Student teaching and assessment modalities

- Enhancing patient interaction skills by implementing a comprehensive care system to encourage students to view patients holistically.
- Facilitate a quicker transition from classroom learning to hands-on experience, allowing students to apply theoretical concepts in a real clinical environment.
- Foster an environment where students can learn from each other's experiences
- Implement strict student learning assessment, by including of OSCE (Objectively Structured Clinical Examination) and other higher-level assessment methods.
- Integration of case-based problem-solving exercises, as this will increase the student's ability to critically analyze the case, strengthen the student's diagnostic skills as we expose them to variety of clinical cases.
- Regularly review and update the curriculum to eliminate outdated or obsolete procedures
- Provide opportunities for students to experience and learn from private practice settings

### 2.2. Additional training:

- Conduct faculty development training programs on effective curriculum implementation strategies.
- Introduce a short course for students on comprehensive patient management during their internship
- Develop a training program focused on handling medical emergencies to better prepare students for real-world situations
- Stimulate interest in research among dental students by showcasing its relevance to clinical practice and advancements in dentistry.
- Incorporate training sessions on research methodologies and encourage student involvement in research projects

### 2.3 Improving Infrastructure:

- Strengthen clinical exposure by increasing the patients inflow into the institution.
- Invest in simulator-based training tools and ensure the availability of improved materials and equipment

**Report on  
"Action Taken" based on Stakeholder Feedback report - 2022  
at DAPMRVDC**

The feedback obtained from the dental professionals regarding dental curriculum is of high significance when we are aiming at strengthening the education system at DAPM RV Dental College, Bangalore.

The feedback obtained from various stakeholders was put forward in a meeting called by the Head of the Institution having Feedback committee head as moderator with heads/representatives from the departments, UG Committee, PG Committee, Health Professional Education Unit, Career guidance cell. As an outcome of the meeting, an actionable plan was developed that will be implemented in phases to best accommodate the evolving competency expectation from the dental graduates.

**Phase 1:**

1. To consider establishing MOUs with various organisations so as to provide more exposure to the students.
2. To increase student exchange programs.
3. To strengthen community postings/ field visits to give real time learning experience.

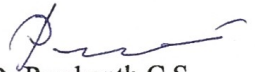

**Phase 2:**

1. To conduct more outreach programmes in the radius of 5 kms so as to improve patient inflow.
2. To encourage faculty to enrol into more faculty development programmes.
3. To conduct more workshops on patient safety & communication skills.

## Feedback Committee Results 2022-2023

### Alumni Feedback:

#### Questions asked

1. How satisfied are you by the extent of coverage of the course?
2. How would you rate the faculty in terms of knowledge of the subject and teaching abilities?
3. To what extent did the course equip you for clinical practice?
4. Did you have any value added inputs along with your curriculum?
5. Did the course give you confidence in facing real world scenarios?
6. To what extent did studying in this Institution help you further your career/ go for higher education?
7. To what extent did the course enable you to develop analytical skills?
8. How would you rate the infrastructure of the Institute?
9. Were you exposed to interactive teaching and learning methods?
10. How would you rate the course overall?

Y - axis: Grades from 1 to 4, 1 being unsatisfactory to 4 being excellent.

X- axis: Question asked.
