5. Student achievements

PG name and batch	Award	Conference (Place and date)
Dr Midhila (2022-2025)	Best Poster award	Pedoverse National PG Convention (February 2020)

6. Details of teaching methodologies followed

- Integrated/inter disciplinary learning :
 - The undergraduate students, Interns and postgraduates participate in **interdepartmental meetings**, conducted once in 2 – 3 months. Staff and students from various departments participate in discussions of case presentations by postgraduates which helps them to update their knowledge and clinical acumen.
 - The post graduate students are regularly encouraged to discuss cases and obtain opinions on treatment plans from the Department of Orthodontics hence enabling them to have an interdisciplinary approach in patient management.
- Participatory learning:
 - The post graduate students are encouraged to participate in seminar presentations, journal clubs and case discussions.
- Self-directed learning:
 - All the students are encouraged to practice **self-directed learning like seminar or journal club presentations**.
- Patient-Centric and Evidence-Based Learning
 - **Patient - centric learning** is emphasized in theory as well as practical / clinical set-up. Applied aspects of various concepts are taught from the 1st year of undergraduate course and are reinforced throughout the course. Students are trained well with preclinical skills and then allowed to progress and treat the patients.
 - Post graduates are mandated to have detailed case discussions with mentors regarding each of the patients in order to arrive at a satisfactory treatment plan.
 - Attention is paid to ensure “**evidence - based teaching and learning**” where the students are counseled to web-search for relevant literature, seek to assess the “trustworthiness” of the information received, before adopting it in their learning and/or research.

1.	TNT THE AUXILIARY FOR TORQUE OVERCORRECTION OF CANINE & BUCALLY TIPPED MOLARS (TWIST NITI TORQUING AUXILIARY)	1 st Place – Paper – Clinical Innovation 26 th IOS PG Convention, Lucknow	DR. VASHIST DINESH
2.	CLEIDOCRANIAL DYSPLASIA: A NOVEL APPROACH	3 rd Place – Paper – Clinical Innovation 26 th IOS PG Convention, Lucknow	DR. SHREEYA MADHUSUDHAN

6. DETAILS OF TEACHING METHODOLOGIES FOLLOWED:

- **Experiential learning:** PG students are allowed to practice mini implant system, Damon bracket system and Aligners which are the recent developments in orthodontics. UG students are allowed to learn removable appliance fabrication for patients and diagnosing and treatment planning for simple orthodontic cases by giving case discussions.
- **Integrated/ interdisciplinary learning:** various multidisciplinary cases are discussed and treated between the departments like ortho-endo, ortho-prostho, ortho-surgery, ortho-perio by the postgraduates with the help of department faculty. Students are encouraged to attend interdepartmental meetings, webinars to expand their knowledge.
- **Participatory learning:** students are encouraged to attend and present posters and papers in specialty conventions and non specialty conventions, conferences and CDE programs.
- **Problem solving methodologies:** Group discussions for the students as and when they are posted regularly. Chair side case discussions are regularly done in the clinical postings for UG students. Regular case discussions are undertaken for PG students and help them develop right treatment plan
- **Self- directed learning:** Post graduates are engaged in seminars, journal clubs, clinical demonstrations, cde's and workshops, conferences and reasearch activities throught their 3 year course.
- **Patient centric and evidence-based learning:** Every case presented will have supporting articles before starting the treatment and focusing in patient's chief complaint first followed by the functional and esthetic considerations to provide maximum benefit for the patients.

5. students achievements : NIL

6.Details of teaching methodologies followed:

- a. **Experimental learning:**The I and II bds undergraduate students during their 2 years of work schedule in Pre clinical prosthodontics , basic knowledge about the subject of prosthodontics and it's branches &different treatment modalities pertaining to the same will be taught. As per rguhs syllabus ,the students will be well trained in detail about the ideal work,in both clinical and laboratory steps. Step by step procedures for treating edentulous arches with complete dentures prosthesis on models will be taught in the preclinical prosthetic lab.The students will learn procedural steps for treating partially edentulous arches with both removable and fixed prostheses. Thus the students will be trained to handle patients in their forthcoming clinical postings.
- b. **Integrated/inter disciplinary learning:** students are exposed to inter departmental meets and regular interdisciplinary meetings . Students are trained towards Oral implantogy . Inter-disciplinary meetings through webinars are provided in the department.
- c. **Participatory learning:** Students are encouraged to participate in ug conventions by presenting academic papers and posters.Students with specific talents are encouraged to develop them,by participating in presentations and extra curricular activities.Periodically PG students mandatorily present seminars ,journal club presentations and also encouraged to participate in pg conventions ,conferences and CDE progmmes by presenting paper ,poster and table clinic presentation.
- d. **Problem solving methodologies.** Group discussions for the students as and when they are posted regularly.chair side case discussions are regularly done in the clinical postings. Any student is free to approach any faculty member in any department to resolve any issues or doubts. Students with language problems are encouraged to attend english classes and learn the local language.
- e. **Self- directed learning:** Post graduates are engaged in chair side discussion,seminars,journal clubs,subject symposium,clinical demonstrations, cde's and workshops,conferences and reasearch activities throught their 3 year course.periodically post graduates are evaluated through weekly tests and mock examination.
- f. **Learning in the humanities:**yes , interns and PG's are mandated to participate in dental health camps and extensions activities with social responsibility to get the opportunity to interact with large volumes of the community. This involvement brings confidence to the students to promote their citizenship role.
- g. **Project -based learning:** Students are encouraged to participate in ug conventions by presenting academic papers and posters.As per rguhs syllabus ,the PG students will do short study , main dissertation,and library dissertation .
- h. **Role play:**UG students practice impression making on each other. Demonstration of clinical and pre-clinical exercises for students .
