Respected Madam,

The Department of Conservative Dentistry and Endodontics conducted a visit to Technodent Lab, Bangalore on 19/12/2020. The visit was organized through the department in association with Mr. S Nagendran, Marketing Manager - Technical and Digital, Ivoclar Vivadent Marketing India Pvt Ltd., for the staff and post graduates. During the visit, a demonstration was given on the various aspects of contemporary digital dentistry which included CAD/CAM procedures and 3D printing. The digital scanning of a patient's cast, digital planning and fabrication of a crown template on the computer and the 3D milling of it from zirconia blanks was demonstrated. The working of the 3D printing machine was also explained in detail. In addition to this, the lab visit also included the conventional ceramic lab where the lab procedures for fabricating a PFM crown was shown.

The post graduates received a good exposure to the lab procedures involved in fabricating various dental prostheses, which the students usually would not be exposed to in a regular college set up. On the whole the visit was truly insightful and opened up various opportunities for the post graduate students to step up their level of patient care and make the most of digital dentistry today. List of staff and students who visited the lab and photos has been enclosed.

Respected Ma'am

On December 28th and 29th, 2020, the Post Graduate Committee of D.A.P.M. R.V. Dental College, had organized an online Continuing Dental Education program on, "RESEARCH METHODOLOGY AND BIOSTATISTICS", to provide an insight to students about the basic foundations of research and statistical methods in dentistry. The resource persons for the program were Dr. Nagesh Lakshminarayan, Dr. Puja C Yavagal and Dr. Shyam Sivasamy. The program was open to all dental staff, interns and post-graduate students of dental colleges and 169 delegates participated in the event.

On day 1, Dr. Nagesh delivered a lecture with a brief Introduction to Research and Research Methodology and presented the various steps in research. The second lecture by Dr. Nagesh covered the various types of hypotheses and their testing. He discussed about various errors that might occur while carrying out research and how to minimize those errors. This was followed by a lecture on Research Designs by Dr. Puja Yavagal. She elaborated on this topic with numerous examples and demonstrations. Dr. Shyam Sivasamy introduced Biostatistics in the last lecture of day 1 giving an overview of basic concepts in Biostatistics.

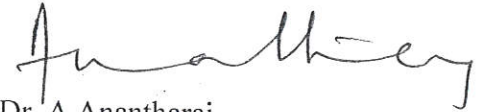

On day 2, the concept of Normal curve and Normality were dealt in detail by Dr. Nagesh. Dr. Shyam gave an insight into various tests of significance and how to select Statistical Tests for a research. Following this, Dr. Puja Yavagal discussed about various Sampling Methods. Dr. Nagesh and Dr. Puja Yavagal delivered highly informative lectures on Selecting a Topic for Dissertation, How to Write Synopsis and Sample size Selection.

All these topics were covered in a very interactive manner with many practical problem solving exercises in statistics. The online feedback received from the participants indicated that it was a very good learning experience with most of them saying that the program was excellent and very good.

We are grateful to the Resource persons Dr. Nagesh, Dr. Puja and Dr. Shyam for providing us valuable insights into Research methodology and Biostatistics. We are grateful to the Principal and our management for their support and co-operation in making this event a resounding success. This achievement was possible due to combined effort of senior delegates, PGs, interns as well as the non-teaching staff of the college.

A budget of Rs. 20,000 was received from RSST and Rs. 11,400 was collected from the delegates. Expenditure for the event was Rs. 15,627 including remuneration and other expenses. Balance amount is returned to the office.

List of participants enclosed.

All these topics were covered in a very interactive manner with many practical problem solving exercises in statistics.

The vote of thanks was given by Dr. Sudhir, Senior Lecturer, Department of Pediatric and Preventive Dentistry. The online feedback received from the participants indicated that it was a very good learning experience with most of them saying that the program was excellent and very good.

We are grateful to the Resource persons Dr. Nagesh, Dr. Puja and Dr. Shyam for providing us valuable insights into Research methodology and Biostatistics. We are grateful to the Principal and our management for their support and co-operation in making this event a resounding success. This achievement was possible due to combined effort of senior delegates, PGs, interns as well as the non-teaching staff of the college. All the participants were presented with certificate of participation.

The Department of Oral and Maxillofacial Surgery, DAPM RV Dental College in association with Prabha Eye Clinic & Research Centre had organized a webinar on the topics "EYE CARE FOR DENTISTS" and "ENDOPHTHALMITIS – A Dreaded problem of the Eye and its relation to Dental Infections" on 5th March 2021 between 2.30 - 3.30 pm.

Dr. Komal Parin Sangoi, a Corneal, Cataract & Refractive Surgeon and Dr. Dhvani Anil Shah, a Vitreoretinal Specialist were the speakers and they both delivered a knowledge packed lecture on the "Importance of Eye care for Dentists" and "Endophthalmitis" respectively.

The programme was concentrated on the Faculty, Postgraduate Trainees, Interns and the Undergraduate students to create an awareness among them on the Importance of Eye care in the field of Dentistry.

The programme witnessed a vast number of more than 70 enthusiastic participants. A positive feedback was obtained from the participants and the programme was concluded successfully.

Dear Delegates,

Indian Prosthodontic Society, Bengaluru Branch presents the post graduate master class program "Mind Martians"-2021. In three years of post graduation, the post graduates would have garnered a lot of information and knowledge and this master class will help them to channelize and present this knowledge in a way suitable from an examination perspective.

Master class aims to provide:

- Opportunity to listen to the views of the postgraduate teachers
- Deliberation and clarification of controversial topics
- Structuring of answers and what is expected to be written by the students in the exam
- Two day program with 6 sessions of 12 lectures
- Each lecture is followed by evidence based synopsis
