(Maximum 500 words)

The Institution has a Management Information System (MIS). It is used to send important notifications to the faculty and students through SMS.

MIS helped in decision making by collecting and analyzing data related to personnel, financials and Inventory. MIS has been helpful in generating patient category wise treatments at the end of every working day and also analyze the treatment done and bill generation. MIS is also used for making the calendar of events, student's postings to various departments and maintenance of attendance.

The Institution uses SAP-ERP (Systems, application and products- Enterprise Resource Planning) as Management Information System. It has four modules – Management, FICO (finance), HR dealing i.e. payroll and employee center and student life cycle management.

The SAP FI of the MIS used in our institution is used for Financial accounting and is used to store the financial data. It comprises of the following sub-components;

Finance accounting general ledger

Finance accounting accounts receivable and payable

Finance accounting asset accounting

Finance accounting bank accounting

Finance accounting travel management

Finance accounting management

Finance accounting legal consolidation

Inventory financial statements

Master data governance

The SAP material management is a part of logistics area and helps to manage the procurement activity which incorporates like sales and distribution, production planning, plant maintenance, project systems, warehouse management.

The SAP MM system also manages the procurement process, account determination, valuation of material, inventory management, invoice verification, material requirement planning.

CRITERION I – CURRICULAR ASPECTS

1.1 Curriculum Planning and Implementation

1.1.1 Institution has the mechanism for well planned curriculum delivery and documentation.
Explain in 500 words

Curriculum planning and Implementation : The Institution follows the curriculum laid down by RGUHS (affiliating University) and Dental Council of India (Recognising body) for effective delivery of the curriculum. At the beginning of the Academic session the IQAC conducts meetings with the concerned faculty and teachers appointed as Co-ordinators for each year. The academic calendar of events with the time tables for both Undergraduate and Post graduates are framed.

The institution provides a well constructed time table / schedule for the academic year. At the department level meetings with regard to syllabus and curriculum is held. The topics and classes are distributed to the teachers by concerned Head's of departments for both UG and PG.

For effective implementation of curriculum, the Institution is well equipped with a Central library and a departmental library for the benefit of the faculty and students.

For effective delivery of curriculum, various classroom teaching methods such as ICT enabled teaching, chalk and blackboard method, Scientific models and charts, distribution of class notes, assignments, Group discussions, Microteaching and seminars are conducted.

All the departments maintain a teaching schedule of the classes held, assessments, assignments and attendance of the students. Remedial and tutorial classes are held.

2.5.2 Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Throughout the year the performance of students is monitored on a continuous basis through a continuous internal evaluation system. This is an integral part of the teaching and learning process.

The students are made aware about the evaluation process and system followed.

An orientation program is held and calendar of events are given to students the beginning of each academic session. Academic calendar and teaching schedule is finalized by the respective departments. The Academic calendar and the teaching schedule are displayed on the departmental notice board. Internal Assessment examinations are conducted thrice a year. This includes theory and preclinical and clinical evaluation. The concerned teacher/faculty of each academic year of the BDS course and the post graduate guides evaluate the performance and the results are subsequently displayed. The performance of each batch/year of students is monitored by the Principal. The principal conducts review meetings with the faculty year wise and department wise and gives necessary feedback for the improvement of the performance of the students.

Based on the performance slow learners, advanced learners are identified. Remedial classes are

scheduled based on their performances.

Twice in a year to discuss the performance of the students, parents-teachers meeting is held. The maintained CPA cards, internal examination of theory and practical/clinical marks are discussed by the teachers.

These reforms have resulted of improvement in the students' performance.

2.5.3 Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The IQAC of the institution prepares & follows the calendar of events prescribed by the RGUHS and also prepares the academic calendar at the beginning of the academic year for all the undergraduate students and post graduate students. The academic calendar is distributed among the students and the teaching faculty members of the institution. The academic calendar consists of the yearly schedule of the theory classes, clinical departmental postings, laboratory both clinical and pre-clinical, schedule of Internal examination and tentative dates of University examinations, list of vacations, holidays, college, social and other cultural programmes, sports and Graduation day.

The post graduate calendar of events contains details such as Internal Assessment every year & Mock Examination at the end of III year for MDS & II year for PG Diploma, Submission of Synopsis, Date of submission of dissertation, Last date of examination fee etc.

The mentors use both formal and informed means of mentoring for gender sensitivity and social responsibility of students.

Yes/No/Partial:

Yes

6.2 Strategy Development and Deployment

6.2.1 Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

❖ Curriculum Development -

The Institution follows the curriculum prescribed by the Dental Council of India and Rajiv Gandhi University of Health Sciences, Karnataka. The UG and PG committees ensure that the curriculum is adhered to every year. There are additional inclusions to enhance the curriculum experience:

- Continuing dental education programmes
- Hands-on workshops
- Workshop on communication skills
- Workshops on infection control
- Workshop on Professionalism
- Career guidance programmes
- Experiential learning through dental camps, health education programmes
- Problem based learning
- Short term research projects
- Scientific presentations for UGs and PGs

In addition, a feedback is obtained on the existing curriculum and the suggested modifications are communicated to the DCI and RGUHS.

❖ Teaching and Learning –

- The teaching learning process is based on the syllabus prescribed by the apex body and the University.
- For Undergraduates: The UG committee oversees the teaching learning process. There are co-ordinators for every year (I, II, III and IV BDS) and they prepare the calendar of events for the academic year. An orientation programme in the beginning of the year provides an overview of the academic process to the students. At the Department level, unit-wise syllabus is discussed and schedules are prepared for Theory and Practical / Clinical training. A lesson plan is followed for each topic by the faculty. Assessment of learning outcome is through class tests, internal assessment examinations and University examinations.
- For Postgraduates: The PG committee oversees the teaching learning process. An orientation programme is held in the beginning of the course. Classes are conducting on basic science subjects for I MDS students. Regular assessment is held in individual departments.

❖ Examination and Evaluation –

Institution follows the system of examination of the affiliated University. For Undergraduates, assessment of learning outcome is through class tests, internal assessment examinations and University examinations. The institution conducts three internal assessment examinations of theory for the undergraduates. Along with written examination, practical/pre-clinical/clinical assessments and viva-voce are conducted. For the postgraduates, a mock theory and clinical examinations are conducted two months before the University exams. Evaluation of the papers with clinicals are done which helps the institution to recognize low and high performers.

❖ Research and Development -

- A budget is earmarked for research every year. Financial assistance is provided for deserving research projects, as well as for scientific presentations in International & National forums, to faculty and students.
- Application for research grants is encouraged.
- Short-term research projects have been introduced at the undergraduate level.
- 12 faculty have been recognized as PhD guides by the affiliated University.
- An Institutional Review board / Research committee monitors and addresses issues related to research

❖ Library, ICT and Physical Infrastructure / Instrumentation –

- Library: Our library is well-equipped with 8000 books with 3693 titles and 44 journals. We subscribe to the Helinet (from RGUHS) which provides access for additional 80 journals. The Library committee oversees the functioning of the library. Libsoft and Web-O-Pac softwares are a value addition to the operation of the library. Book exhibitions are organized where publishers display the latest editions of books and faculty select the books in their respected specialities. A library budget is earmarked for purchase of books every year. In addition, awards are instituted for

maximum usage of library for both students and faculty.

- Continuous maintenance & upgradation of ICT and physical infrastructure is done.
- The institution ensures that the infrastructure and equipment fulfil the norms of the apex body and the affiliated university.

❖ Human Resource Management –

- The Human Resource Department along with IQAC help in the process of recruitment, employee selection, orientation, induction, training, developing the skills, performance appraisal, benefits, motivation, safety and welfare of the employees thereby leading to making the employees give their best contribution towards the institution.
- Motivating the faculty and the students to attend and participate in refresher and orientation courses.
- Infection control procedure training for non-teaching faculty.
- Organization of workshops
- Self-appraisal of all the teaching & non-teaching faculty.
- Maintenance of Grievance Redressal Cell, anti-ragging committee, sexual harassment committee

❖ Industry Interaction / Collaboration

- Collaborations for research projects
- Career guidance programmes for interns

❖ Admission of Students -

Since the institution is affiliated to RGUHS and is recognized by the DCI, the admission of students is through NEET,.A centralized process of admission as per guidelines of the Karnataka Examination Authority Government through an online process is followed. Payment of fees for both UG and PG through an online portal.

6.2.2 : Implementation of e-governance in areas of operations:

❖ Planning and Development -

- The office and the departments have adequate computers and internet connection
- Classrooms & Departments have adequate ICT
- Promotions through social media
- SAP software introduced
- Library automation software
- Regular update of institutional website

❖ Administration –

- Email IDs to all faculty under the umbrella of the management – domain “rvei.edu.in” for official communications

- E-circulars from IQAC/Principal to faculty and students

❖ Finance and Accounts –

The institution's finance and accounts are fully computerized. Till 2018, maintenance of college accounts were through Tally and after September 2018, it is through the SAP (Systems, Applications & Products) software.

- Student Admission and Support

- Student admissions take place through NEET entrance examination and the counselling is through Karnataka Examination authority. The admission process is online and adheres to the rules and regulations formed by the Government.

❖ Examination - Institution follows the scheme of examination of affiliated university. For University examination question papers are sent by University online 10 minutes before the examination. Evaluation is an online process. A digital valuation centre is present in the campus with 14 computers. Uploading of practical / clinical marks both of Internal and main university exams is online.

INSTITUTIONAL BEST PRACTICES:

Best Practice 1

- Title of the Practice: **“Digital Feedback system – Go green”**
- Objectives of the Practice:
 - To obtain students’ feedback on teaching-learning process for further enhancement.
- The Context:
 - Obtaining feed-back forms an integral part of teaching-learning process. Feed- back may be obtained from the stakeholders in structured and non-structured formats. Structured feedback format is followed for the undergraduates and postgraduates.
- The Practice:
 - To obtain feedback from undergraduates (I BDS to IV BDS) for the academic year 2018-2019, student satisfaction survey was linked to Google and Google forms were used to take feedback from all the undergraduates. Separate links were created for each year and the students were asked to fill up the survey forms. The respective academic year co-ordinator had supervised and had facilitated the process. The results of the feedback were in the form of graphical representation.
- Evidence of Success:
 - This practice was well appreciated by the students and the staff members as there is absolutely no use of paper.
 - The results of the survey were seen in the form of pie-charts and graphical representations.
- Problems encountered:
 - No major problems encountered; The initial phase required few meetings and discussions in designing and linking the survey to Google and in monitoring the response.

Best Practice 2

- Title of the Practice: **“Practice of Mentorship–Teachers as role models”**
- Objectives of the Practice:

To practice mentorship at the department and institutional levels

Principal
D.A.P.M.R.V. Dental College
J.P. Nagar I Phase,
Bangalore - 560 078.

- The Context:
 - The practice of mentorship by teachers in academic and clinical setting is very significant in moulding the students in the right direction and to obtain fruitful outcome.
- The Practice:
 - The undergraduate and postgraduate students are mentored by the teachers. Mentorship is being practiced both at the department and at the institution levels.
 - The students are given one to one attention in academic training. To list some of the practical / preclinical / clinical exercise are Carving of teeth in wax blocks for I BDS students, cavity preparation on plaster models, typodonts and teeth setting for II BDS, identification of abnormalities related to oral & paraoral structures and recording clinical cases in III BDS, delivering dental treatment to the patients in III BDS, IV BDS, Internship and during postgraduate course.
 - All the students are given more attention in their academic programme, co-curricular activities. If required, the students are counselled for their behavioural pattern.
 - At individual department level, the teacher takes a group of students say 12 to 15 for mentoring and their overall performance is taken care.
 - Mentorship at the institution level allocates 10 – 15 students per teacher (mentor) and those students will be mentored for that particular- academic year in all aspects (academic, co-curricular, personal, behavioural, psychological and social dimensions).
 - Minutes of the mentorship meeting are documented. Slow learners are identified and are given additional time and resource to improvise.
 - **Teacher as mentor** works as a **facilitator, collaborator, advocate, challenger, goal setter, career guide** and overall as a **role model** starting from I BDS till the level of PhD scholar.
- Evidence of Success:
 - With continuous mentorship, performance of the students in both formative and summative assessments are getting better as evidenced by increased number of ranks in university examination in the preceding year.
- Problems encountered
 - The teacher as a mentor must be an all-round personality and to fill the gap, the teacher must undergo skill development and enhancement training on regular basis.

DA PANDU MEMORIAL R V DENTAL COLLEGE AND HOSPITAL, BENGALURU

INSTITUTIONAL DISTINCTIVENESS

State of the art infrastructure:

We have built in area of 5.2 acres of land and our **institution** is located in the **heart** of the city, having well equipped **dental** and a **medical hospital** in the same **campus**.

Governance and Leadership:

Our **faculty** have **represented** our institution in enriching curriculum and teaching-learning evaluation methods being part as **Dean** - Faculty of Dentistry, **Syndicate** members, members of **Board of Studies** in both UG and PG, representation in **Ph.D** committee, **Assistant editor** of RGUHS Journal of Dental Sciences, members of **editorial** and **review board** of **RGUHS Journal of Dental Sciences** at Rajiv Gandhi University of Health Sciences (**State Government University**), Bengaluru.

Research:

Members of faculty have published **more than 500 papers** in national and international journals of repute.

To enhance the **research temperament**, the students are encouraged and are guided to carry out short-term and long-term research projects, present them in scientific conferences, and then translate them into publications.

Incentives for presentation and participation in scientific programmes at the national and international platforms are being considered for both **staff** and **students**.

The institution has memorandum of understanding (**MoU**) with **Showa university, Japan** and this MoU can facilitate student and staff exchange programmes.

Student training:

One of the chief goals in vision and mission of the institution is imparting **excellence in health education**.

The various academic programmes being offered to the students are Bachelor of Dental Surgery (BDS), Master of Dental Surgery (MDS), Diploma in various specialities and Ph.D programme.

Orientation programmes are conducted for both undergraduates and postgraduates at the beginning of every course.

The undergraduates and postgraduate **students** are **extensively trained** in different academic programmes, and are also encouraged to participate in co-curricular activities.

The **students** are exposed to the state of art infrastructure, are **empowered** with appropriate **knowledge**, handful of **skills** and the right **attitude**.

Mentorship is being practised at the department as well as at the institution levels.

The students are trained in **Preclinical**(wax models, plaster models, typodonts as few examples in simulation laboratories) and **Clinical**setting(initially small procedures on patients followed by management of challenging cases).

Interdisciplinary / integrated approach and **Clinico-pathological meetings** are part of teaching-learning programme.

Our students are also **trained in soft skills** such as communication and ethics.

We encourage students to participate in **sports** and **cultural activities** at the intercollegiate, university, interuniversity and national platforms. One of our students had participated in national level swimming competition.

The successful training of students is evidenced by increased number of undergraduate and postgraduate **ranks**(100 plus in the preceding academic year) at the **university level** and prizes won in sports and cultural events.

Service systems for community development:

Another significant vision and mission of the institution is **service to humankind**. The institution is actively involved in delivering quality health care to the population at large, targeting all the diseases and ailments affecting oral and paraoral structures.

The various **treatment** procedures carried in our dental hospital are at **nominal fee**.

Some of the important **tie-ups** of the institution are with **Sevakshetra hospital, KSRTC satellite centre, Satya Sai Hospital and Sriramanahalli**.

Community health programmes such as **screening** and **treatment camps** for adults, Dental camps for school children are regularly conducted. Till now 1400 dental camps have been conducted during which 3,66,965 patients have been benefitted. In addition to the camps being conducted within Karnataka, many camps are conducted even outside the state.

Special camps such as '**Free Denture Camp**' and '**Danta Bhagya Yojane**' (by Government of Karnataka) have also been organized.
