Welcome to the world's first genuinely Adaptive Learning Platform, Quiklrn, with integrated AI-based Learning Services for a Personalized Learning Experience.

Corporates can make training engaging, feedback-oriented, and practical using Quiklrn Adaptive Learning System over traditional Learning Management System (LMS). It is customizable to the organization's Learning and Development requirements and aligned to business outcomes.

Academic Institutes, Universities, and Colleges can now simplify the Accreditation and digitize Teaching-Learning Processes (TLP). Quiklrn's Outcome-Based Education (OBE) design brings in ICT Tools that help to drive Student-Centric learning for better Course Outcomes.

ADAPTIVE LEARNING  
PLATFORM

# Adapts to how I learn

# Simplified Access

App-based content access at  
the point of need.

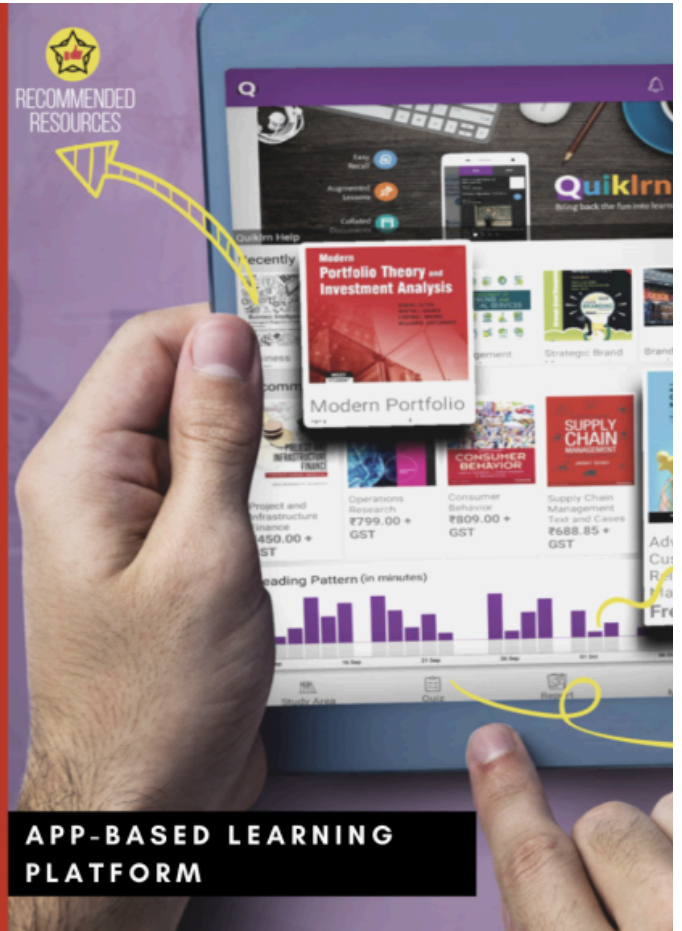

# Learning Interface

with AI-Powered services

90% of learners prefer Course material, e-books and assessments on a smart interface.

APP-BASED LEARNING PLATFORM

DIGITAL TEACHING-LEARNING PLATFORM

# Academic Institutes

App-based learning preferred by millennials.

>30% of accreditation metrics IMPACTED by ICT tools used

Quiklrn is a cloud-based platform, simplifies deployment, course and content management. It addresses the gaps in conventional learning and training operations.

- ✓ Corporates need a Learning Platform that is adaptive and helps in driving learning outcomes
  - Simplify Learning and knowledge management for both employees, clients and partners.
  - Meet compliance training requirements.
  - Track and measure the learning outcomes and keep the learning current
- ✓ Academic institutes benefit from simple workflows
  - Faculty do not have to waste time in learning IT systems and it's workflows
  - Day-to-day digitized academic tasks are simple and fast to execute.
  - Faculty can complete the tasks while on-the-go from their personal devices.
- ✓ Keep learning using Quiklrn's app-based access

- The app is freely downloadable on learner's devices
  - Unlimited access to open courseware that is populated as per topic.
  - Add content from other sources and use Quiklrn's adaptive features to add notes, references , images, weblinks etc.
- 

- ✓ **Adaptive Course Builder to create a tailor-made engaging course for better completion rates.**
  - Create content packs with real-life scenarios or stories/short videos from subject matter experts
  - Courses, integrated with assessment, help assess improved effectiveness
- ✓ **Simplified automatic data gathering for accreditation**
  - Helps to improve student engagement, results and outcomes
  - Eases data capture and avoids excel-based management of data
  - Standardizes and automates the course and program outcome attainment calculations
- ✓ **Enhance learnability through learner-centric platform**
  - Language translators help to understand the content in preferred language
  - Text-to-audio feature reads aloud the content which is a more effective way to remember
  - AI powered recommendations provide most relevant, updated and reviewed content at the right time
